

Press Release

Children's Healthcare of Atlanta Picks HealthFlash™

Emerging Solutions, Inc. is pleased to announce that Children's Healthcare of Atlanta has decided to manage their key initiatives using Emerging Solutions' HealthFlash™ product. Brian Moore, Emerging Solutions' COO, said, "We are pleased to announce this major customer for HealthFlash. This sale validates what our numerous evaluation sites around the country have been telling us – that HealthFlash provides unique benefits to hospitals in this ever-changing healthcare environment. HealthFlash is an application that can help manage both the business and accreditation side of healthcare." HealthFlash is an Internet-based hospital project information management tool. The application is hosted on the Internet and clients need only a web-browser and an Internet connection.

Charlene Roberts, Children's Healthcare of Atlanta's Systems Director of Accreditation, added, "We finally have a tool that will enable us to implement a continuous accreditation model for the entire system. As we move toward Network accreditation at Children's Healthcare of Atlanta, this application will give us an advantage in preparing and complying with the necessary accreditation standards."

With HealthFlash Executive, managers can track progress on key strategies, get project summary information, key indicators reports, and accreditation compliance updates. HealthFlash Flagship promotes team collaboration and accountability by creating, tracking, and logging all information related to projects, indicators, tasks, meetings, documents and it helps ensure compliance with accreditation standards.

Deven Mattheus, Vice President, Information Services and Technology at Children's Healthcare of Atlanta, states "HealthFlash will align all of our house-wide projects with organizational strategy. This will ensure a return on the investment of people and resources against project outcomes."

HealthFlash is ESI's project information manager for healthcare. Over 200 companies currently rely on Emerging Solutions to expand communication, increase accountability and provide real-time access to project information.

Children's Healthcare of Atlanta is dedicated to enhancing the lives of children through excellence in patient care, research and education. Children's addresses the unique needs of sick and injured children and their families with specially trained physicians and staff, equipment designed for young, growing bodies and a child-friendly environment. Children's has been recognized for excellence in cardiology, cancer treatment, craniofacial surgery, emergency medicine, orthopaedics, rehabilitation and transplantation services among many other pediatric services. With 400 beds in two hospitals, Children's is one of the largest pediatric health care systems in the country.
